1. Detailed Scope of Work

SCORES is an online platform designed to help investors to lodge their complaints, pertaining to securities market, online with SEBI against listed companies, SEBI registered intermediaries and recognized market infrastructure institutions. All complaints received by SEBI against such entities are dealt through SCORES.

There are 6 modules in which the entire SCORES system can be segregated:-

- Investor Module
- Market Intelligence Module
- Organization Module
- Inwards Module
- Admin Module
- Staff Module

The module wise business requirements are detailed below.

1.1. Investor Module

Investor module is the interface for investors to create their account in SCORES, lodge complaint and check status of their complaints. This module consists of SCORES website (<https://scores.gov.in/scores/>) and SCORES mobile applications (iOS and android). The website and mobile applications should have bilingual (English & Hindi) support. The input screens for portal and app will be similar as provide below.

The website/App has to be completely renovated with the objective of making it easily accessible, navigable and investor friendly. SCORES website (Landing page) will have following sections –

1.1.1. Header Section

It will contain below links

- Entity Status
- Tutorial videos
- FAQs
- Statistics
- Contact Us

1.1.1.1. Entity Status

User can check the status of listed entities against which complaint can be raised in SCORES.

Input: Name of the company (to be an Autocomplete field based on input from the user)

Process: Nil

Output:

Name:

Company Status:

Company Address:

State of Company

Previous Names:

Exchange Status:

Compliance Office Name:

Compliance Officer's Email:

Compliance Officer's Number:

Registrar Name:

Acceptance Criteria: Input and Output screen as desired

1.1.1.2. Tutorial videos**Input:** Nil**Process:** Nil**Output:**

This page will contain tutorial videos about SCORES. Tutorial videos have to be developed on various functions pertaining to SCORES website for the investor and the entity. The tutorial videos shall be developed on the following topics separately for both Portal and Mobile App.

1. How to register on SCORES
2. How to lodge a complaint on SCORES
3. How to check the status of complaint on SCORES
4. How to send clarification on a complaint on SCORES
5. How to review a complaint on SCORES
6. How to give feedback on a complaint on SCORES

The video should be a screen recording demonstrating what a complainant should fill at each step in the given field. The video should also provide voice instructions.

1.1.1.3. FAQ**Input:** Nil**Process:** Nil**Output:**

This page will contain a single document titled “FAQ” in PDF format.

1.1.1.4. Statistics

This head will contain the following tabs.

1.1.1.4.1. Monthly status report on SCORES complaints

Input: Nil

Process: Nil

Output: The screen should display a list of documents uploaded on a monthly basis under “Title” as provided in the table below. The documents will be PDF documents. The feature to upload the documents will be provided to SCORES Admin.

Date	Title
Publishing date	Name of the document

1.1.1.4.2. Complaints Data

Input:

- From: Starting date
- To: Ending Date
- Type of Report: 1. Category 2. Entity
- Select Category: Drop down menu providing all categories in SCORES if the “type of report” selected is “Category”
- Select Entity: Name of the entity (to be an Autocomplete field based on input from the user) if the “type of report” selected is “Entity”. For an entity which is registered with SEBI in multiple categories the report should provide the result for each category.

Process: Nil

Output:

For Category Report

Category	Received	Pending Actionable as on

For Entity Wise Report

Entity	Category	Received	Pending Actionable

1.1.1.5. Contact Us

This page will contain contact details of SEBI Offices and SCORES related SEBI officials.

Input: Nil

Process: Nil

Output:

SN	Issue	Contact Person	Email	Tel no.
1				
2				
3				
4				

SEBI Offices

Same as Contact Us Page available on SEBI website (<https://www.sebi.gov.in/contact-us.html>)

1.1.2. Login Section

This section will have two parts: -

- Login for Investors/Complainants
- Login for Entities (Details in Organization Module)

Login Section for Investors

1.1.2.1. New user registration page

Input:

The page will first show a radio button to select any one of these-

- Indian resident
- NRI

For Indian Resident, the registration form will contain the following mandatory fields (to be denoted with an Asterisk Mark):-

- Name
- Correspondence Address including Pin code and State/UT. Based on the Pin Code provided by the complainant, City and State should be auto selected
- E-mail Address to be verified with OTP
- PAN Number
- Mobile Number:
- Phone Number (Optional)

For NRIs, the Registration Form will contain the following mandatory fields (to be denoted with an Asterisk Mark):-

- Name
- E-mail Address to be verified with OTP
- Mobile Number (international mobile number should be accepted)
- Country
- PAN Number (Optional)
- Passport Number

After filling all the details, User will move to next page where he/she will provide a login id and password.

Process:

- In case any mandatory information has not been provided by the user, then an error will be shown to the user asking them to fill the specific mandatory field.
- If the user selects a login ID that is already existing, then they shall be prompted to provide another login ID.
- Only one login can be created with one PAN/Passport.
- Password should be alphanumeric with at least one special character, one character in CAPS and one numeric character.

Output:

- User should be shown a message informing him that Registration is successful and the SCORES credentials has been sent on their E-mail address and Mobile no.
- Login ID to be displayed.
- A link to go to Login page may also be provided.

Acceptance Criteria

- A confirmation mail and SMS will be sent to registered email id and mobile number of the user with login credentials on successful registration.
- Output screen as mentioned
- User is able to login with the credentials created

1.1.2.2. [Forgot password/login id page](#)

It will have two options-

▪ **Forgot login id**

Input:

User will have to enter the registered PAN/Passport number and registered email id.

Process:

If both the entered details matches with any account detail in SCORES database, then that login id will be sent to registered email id.

Output:

- In case the PAN/Passport number and Registered email ID matches then the user should be informed that the login details has been sent to the registered email id
- In case the PAN/Passport number and Registered email ID do not match, then the USER should be informed that the PAN/Passport Number and Registered email ID do not match and be prompted to enter correct information.

Acceptance criteria:

A mail will be sent to registered email id containing the Login ID.
Output screen as mentioned above.

▪ **Forgot password**

Input:

User will have to enter the login id.

Process:

- An OTP will be sent to registered email id & mobile number. On successful verification of OTP user will be allowed to set new password.
- Password should be alphanumeric with at least one special character one character in CAPS and one numeric character.

Output:

A success message informing the investor change in password.

Acceptance Criteria:

- OTP should be received by the user.
- User is able to login with the new password.
- Output screen as mentioned above.

1.1.2.3. Space for entering Login and Password

Input:

Users can provide their login ID and Password to enter their account. For users migrating from old SCORES the login id and password will stay the same as previous login id.

Process:

At the time of logging in for the first time old users will be given a onetime option to change their User ID and Password.

Output:

- After Successful login User will be taken to homepage of the user.
- If login/Password credentials are not correct then they shall be prompted to provide correct login/password.
- After 3 unsuccessful attempts are made, users shall be informed that account is locked. Account can be unlocked by using the forgot password option.
- If the PAN/User ID has been classified as chronic complainant, then a message informing them the same and asking them to refer the FAQs for more information on chronic complainants.

Acceptance Criteria:

- Output screen as mentioned above.
- User should be able to login after entering correct details.
- User should not be able to login after entering incorrect details.

1.1.3. Homepage

The Homepage of a user after login will contain the following broad sections: -

- Complaints
- Market Intelligence
- Suggestions
- My Profile

1.1.3.1. Complaints

The options on the main page header section before login should also be provided here as well. Under Complaints, the following options will be there-

1.1.3.1.1. Lodge a Complaint**Input:**

On clicking “Lodge a complaint” user will be first asked whether the complaint is for self or other. If ‘self’ is selected user will be taken directly to complaint lodging screen and complainant details will be fetched from user’s account details. If ‘other’ is selected, a form to enter complainant details will be displayed as under

Indian Resident/NRI (To be decided through a Radio Button)

- Name
- Correspondence Address including Pin code and State/UT. Based on the Pin Code provided by the complainant, City and State should be auto selected.
- E-mail Address to be verified with OTP.
- Mobile Number:

- Phone Number (Optional)
- PAN Number (to be made optional for NRIs)
- Passport Number (to be activated only for NRIs)

Complainant will be taken to complaint lodging screen after the details are filled. The input screen will be as under: -

- Category of complaint: Complainant will have to select from various available categories their category of complaint.
- Subcategory: User should then select the sub-category of complaint available under the category. This should be a checklist where the complainant should be able to select multiple nature of complaints.
- Entity: Based on the category, list of available intermediaries/companies against whom complaint can be lodged will be populated. This will be an auto-complete field where complainants will be suggested names of entities based on inputs provided.
- Complaint Details: A text box to fill the necessary information should be provided. A space of 2000 characters should be accepted in the text box.
- Attachments (Optional Field): Complainants should be able to attach up to 10 documents with an overall limit of 20 MB. Types of documents that should be accepted are PDF, Picture files and Audio files.

Category wise input fields are provided at [Appendix II](#).

After filling the above information user will click on Next. In the next page user will be asked the following question

Have you taken up your complaint with the concerned entity?

- Yes/No (Radio Buttons)

If No,

the complainant should be shown the complaint preview screen for the details they have submitted till then. After that the complainant should be given the option to submit the complaint.

Output:

Once the complaint is submitted, the complaint should be auto-closed with a standard message to take up the complaint with the concerned entity first and the complainant should be shown the auto closure message as well. This notification should also go to their registered e-mail and mobile number.

If yes,

- Provide the copy of complaint lodged with the concerned entity.
- Attachment: Up to 2MB should be accepted
- Date of lodging
- Have you received any response from the concerned entity?

Yes/No

If Yes,

- Provide the copy of response sent by the concerned entity.
- Attachment: Up to 2MB should be accepted
- Date of response

Output:

The complainant should be then shown the complaint preview screen for the details they have submitted till then. After that the complainant should be given the option to submit the complaint. Once the complaint is submitted, the complainant should be shown the complaint registration number along with an acknowledgement message. The complainant should also receive the acknowledgement message and complaint number on the registered e-mail and mobile number.

If No,**Output:**

The complainant should be shown the complaint preview screen for the details they have submitted till then. After that the complainant should be given the option to submit the complaint. Once the complaint is submitted, the complainant should be shown the complaint registration number along with an acknowledgement message. The complainant should also receive the acknowledgement message and complaint number on the registered e-mail and mobile number.

Separate fields will be added for different categories of complaints as per Annexure II.

Process:

A Duplicate complaint check will be performed by the system, if the user, category, sub-category, entity name and date of complaint lodged with entity and date of response from the entity are the same. In case they are the same and a similar complaint is pending in SCORES, then a pop-up will be shown on the screen informing the complainant that a complaint is pending in SCORES with similar information and this will be a duplicate complaint and hence cannot be lodged in SCORES. In case a similar complaint is closed in the system and it's been less than 15 days from the date of closure of complaint, user will be shown a pop-up informing them that a similar complaint was recently closed in the system, would they like to Review? If the details are not similar or a similar complaint is closed for more than 15 days in the system, the complaint will be accepted.

1.1.3.1.2. Reminder

Reminder page will show the list of complaints for which user can send reminder. User can send reminder only after 30 days of lodging the complaint.

Input:

- Complaint No.: List of complaint for which reminder can be accepted will be displayed.
- Additional Information: A text box where complainant can provide additional information, if any, of up to 2000 characters.
- Attachment: The complainant may also attach additional documents of up to 2MB. Multiple documents to be allowed.

Process:

The information submitted by the complainant will be updated in the action history of the complaint along with attachment.

Output:

- Complainant will be shown a message that “A reminder has been lodged successfully”.
- A reminder notification will be sent to the concerned dealing officer in SCORES.

1.1.3.1.3. Review

Review page will show the list of complaints for which user can review. User can review a closed complaint up to 15 days from the date of closure of complaint.

Input

- Complaint No.: List of complaint for which review can be accepted will be displayed
- Additional Information: A text box where complainant can provide additional information, if any, of up to 2000 characters.
- Attachment: The complainant may also attach additional documents of up to 2MB. Multiple documents to be allowed.

Process Flow

The complaint will be assigned to the Division Chief of the department/division where complaint has been closed.

Output

- Complainant will be shown a message that “A review has been lodged successfully”
- A review notification will be sent to the concerned division chief in SCORES

1.1.3.1.4. My complaints

Input: Nil

Process Flow: Nil

Output:

My complaints page will contain the list of all complaints lodged by the user including Review complaints, the date of lodging of complaint and the date of closure of complaint. On clicking any complaint, it will show the details including the full action history of the complaint.

1.1.3.1.5. Feedback

This page will contain all the complaints for which feedback can be provided. User can provide feedback for the closed complaints within 15 days from the date of closure

On clicking any complaint, it will start the feedback process.

Input:

Details attached in [Annexure VII](#).

Process:

The data will be saved at the back end. Reports on the data may be generated

Output:

- A message thanking the complainant for their feedback shall be displayed to the complainant

1.1.3.2. Suggestions

Input:

On clicking “Suggestions” user will be taken to lodging screen. The input screen will be as under: -

A standard message: “The suggestion provided by you will be sent to the concerned department for necessary action, if any. The suggestion will be analysed and if found necessary, further action will be taken. No status on your suggestion can be provided as implementation of suggestion cannot be insisted upon and is completely at the discretion of SEBI. Therefore, no reference number and/or acknowledgement shall be sent to you.”

Category of Suggestion: Complainant will have to select the relevant category in which he want to make suggestions.

- All categories available in SCORES complaints section will be provided here.

Suggestion Details: A text box to fill the necessary information should be provided. A space of 2000 characters should be accepted in the text box.

Attachments (Optional Field): Complainants should be able to attach up to 10 documents with an overall limit of 20 MB Types of documents that should be accepted are PDF and Picture files.

Category wise input fields are provided at [Appendix II](#).

Process:

- In this section, reference numbers will not be provided to complainant and the reference will be marked closed with respect to investor module. Any submission made will not show in ‘My complaints’ list.
- No review or reminder can be submitted for any references lodged here.

Output:

Complainant will be shown a message that “Thank you for providing your suggestion. The suggestion provided by you has been sent to the concerned department for necessary action, if any. The suggestion will be analysed and if found necessary, further action will be taken. No status on your suggestion can be provided as implementation of suggestion cannot be insisted upon and is at the discretion of SEBI.

Therefore, no reference number and/or acknowledgement shall be sent to you.”

Acceptance Criteria:

- All mandatory fields to be provided.
- No notification/email/complaint reference number should be sent/shown to informant.
- Attachment should only accept allowed formats, total size should not exceed 20MB and total no of files should not exceed 10.
- The options as available on the home page should also be available to all investors after login.

1.1.3.3. My Profile

The following options shall be provided to users under My Profile Section

1.1.3.3.1. Change User details:

User can modify all the personal information entered at the time of registration except PAN.

Input: The prefilled information of the following fields will be provided to the user which can be modified by them

- Name
- Correspondence Address including Pin code and State/UT. Based on the Pin Code provided by the complainant, City and State should be auto selected
- E-mail Address to be verified with OTP
- Mobile Number:
- Phone Number (Optional)
- PAN Number (to be made optional for NRIs)
- Passport Number (to be activated only for NRIs)

Process:

The data will be updated at the back end.

Output:

The data has been updated on SCORES

Acceptance criteria:

- The fields should be prepopulated from the information submitted at the time of registration
- All the fields except PAN should be editable
- The changes should be updated in the account and back end

- The output message should be shown

1.1.3.3.2. **Change Password:**

User can change the password of their SCORES Account

Input:

- Old Password
- New Password
- Confirm New Password
- Password should be alphanumeric with at least one special character one character in CAPS and one numeric character.

Process: Password should not be accepted if it doesn't conform to the rules.

Output:

Your Password has been changed.

Acceptance criteria:

- Password should not be accepted if it doesn't conform to the rules
- The output message should be shown
- User should be able to login with the new password

1.2. Market Intelligence Module

Market Intelligence module is the interface for investors to provide market intelligence information to SEBI. This module consists of Market Intelligence website (<https://sebi-intel.sebi.gov.in/>)

Input:

On clicking "Market Intelligence" user will be taken to lodging screen. The input screen will show the standard remark as under: -

A standard message "The information provided by you in this section will be treated as market intelligence/information as your submission may affect other investors also. The information will be analysed and if found necessary, further action will be taken. The status of such examination cannot be disclosed as SEBI conducts the examination confidentially in a holistic manner. Therefore, no reference number and/or acknowledgement shall be sent to you. In order to aid SEBI to carry out its information gathering activity, you are encouraged to provide correct and complete information. Any regulatory actions taken by SEBI are published at SEBI website at www.sebi.gov.in"

Category of Market Intelligence: Complainant will have to select from various available categories their category of Market Intelligence.

- Insider Trading
- Price/Market Manipulation
- Fake and Forged
- Accounting Manipulation by Listed Companies
- Price/Volume Manipulation in Commodity Future and Options
- Spreading Rumours / Buy Sell Tips
- Miscellaneous Surveillance Issues
- Minimum Public Shareholding
- Corporate Governance

Subcategory: User should then select the sub-category, if any, under the category. This should be a checklist where the complainant should be able to select multiple nature of complaints

Entity: Based on the category, list of available companies/commodities against whom Market Intelligence can be lodged will be populated. This will be an auto-complete field where complainants will be suggested names of entities based on inputs provided. A name has to be mandatorily selected from the options provided.

Market Intelligence Details: A text box to fill the necessary information should be provided. A space of 2000 characters should be accepted in the text box.

Attachments (Optional Field): Complainants should be able to attach up to 10 documents with an overall limit of 20 MB Types of documents that should be accepted are PDF, Picture files and Audio files.

Category wise input fields are provided at [Appendix II](#).

Process:

- In this section, reference numbers will not be provided to complainant and the reference will be marked closed with respect to investor module. any submission made will not show in 'My complaints' list.
- No review or reminder can be submitted for any references lodged here.

Output:

Complainant will be shown a message that “Your information has been submitted successfully. The information provided by you in this section will be treated as market intelligence/information as your submission may affect other investors also. The information will be analysed and if found necessary, further action will be taken. The status of such examination cannot be disclosed as SEBI conducts the examination confidentially in a holistic manner. Therefore, no reference number and/or acknowledgement shall be sent to you. In order to aid SEBI to carry out its information gathering activity, you are encouraged to provide correct and complete information. Any regulatory actions taken by SEBI are published at SEBI website at www.sebi.gov.in”

Acceptance Criteria:

- All mandatory fields to be provided.
- No notification/email/complaint reference number should be sent/shown to informant.

Attachment should only accept allowed formats, total size should not exceed 20MB and total no of files should not exceed 10.

1.3. *Entity Module*

Entity module is the interface for SEBI registered intermediaries/Listed companies/MIs to check and act upon the complaints forwarded to them.

SCORES Entity module will have following sections –

1.3.1. *Login page*

Users can login by clicking the link '[Login for entities](#)' on SCORES website.

1.3.1.1. *Space for entering Login and Password*

Input:

Entities can provide their login ID and Password to enter their account.

Process: Nil

Output:

After Successful login User will be taken to homepage of the entity.

If login/Password credentials are not correct then they shall be prompted to provide correct login/password.

After 3 unsuccessful attempts are made, users shall be informed that account is locked. Account can be unlocked by using the forgot password option.

Acceptance Criteria:

- Output screen as mentioned above
- User should be able to login after entering correct details
- User should not be able to login after entering incorrect details

1.3.1.2. *Forgot password/login id page*

It will have two options-

▪ **Forgot login id**

Input:

Listed Co./Intermediary will have to enter their PAN/Registration number and registered email id.

Process:

If the entered details match with the account details the login id will be sent to registered email id.

Output:

- In case the PAN/Registration number and Registered email ID matches then the user should be informed that the login details has been sent to the registered email id
- In case the PAN/Registration number and Registered email ID do not match, then the USER should be informed that the PAN/Registration number and Registered email ID do not match and prompted to enter correct information.

Acceptance criteria:

A mail will be sent to registered email id containing the Login ID.
Output screen as mentioned above

- **Forgot password**

Input:

User will have to enter the login id.

Process:

An OTP will be sent to registered email id. On successful verification of OTP user will be allowed to set new password.

Password should be alphanumeric with at least one special character one character in CAPS and one numeric character.

Output:

A success message informing the investor change in password

Acceptance Criteria:

- OTP should be received by the user
- User is able to login with the new password
- Output screen as mentioned above

1.3.1.3. New Entity Registration

Entities who have not taken SCORES login credentials can apply for new account through this page. Input

A Radio button to select type of entity will shown

1. To be listed company
2. Registered Intermediary/MII

If Registered Intermediary is selected, then the following mandatory fields (to be denoted with asterisk) should be filled up

Input:

- Registration Number

- Name of entity: This should be automatically populated based upon the Registration Number
- Category (registered as)
- Name of Official
- Designation of Official
- E-mail Address
- Mobile Number
- Phone number (optional)

Process and Output:

- If the SCORES Login ID for the entered registration number exists, a message will be displayed “Intermediary already registered on SCORES. Login details sent to registered Email ID.” And login credentials will be sent to registered email id.
- If the SCORES Login ID for the entered registration number does not exist in SCORES, then a new SCORES login ID will be generated and sent to the e-mail ID entered. A message will be displayed that “SCORES Login ID created and sent to the e-mail ID”

If To be Listed Co. is selected

Input:

As per [Annexure VI](#).

Process and Output :

- If the CIN/PAN number is already registered, a message will be displayed “CIN/PAN already registered. Login details sent to registered Email ID.” And login credentials will be sent to registered email id.
- If the CIN/PAN number is not registered in SCORES, the application will be submitted for approval of SCORES admin.

After Successful login Entities will be taken to their homepage.

1.3.1.4. [Homepage](#)

Homepage will show the below links –

1.3.1.5. [Pending Complaints](#)

Input: Nil

Process: Nil

Output:

All Pending complaints including normal and review complaints will be displayed to the entities which are pending at the entities’ end. The format will be as under:-

Registration No.	Name of the complainant	Complaint against	Date of complaint	Days pending	Status

Any complaint where the entity has not taken any action, or the matter is pending at their end shall be under this tab

On clicking any complaint, the entity will be shown the complaint details. Action history of the complaint will also be shown to them but in a different Tab.

The Decision which will be available to the entity on a complaint are as follows: -

- a. **Send interim ATR to SEBI**: an interim response will be sent to SEBI. It will not result in any movement of the complaint or change in pendency in reports. The status at entity's end will show as "Interim ATR sent to SEBI"
- b. **Send Final ATR to SEBI**: a final ATR will be sent to SEBI. It will result in changing the status of the complaint at entity's end and will show as "Final ATR sent to SEBI". This will change the report and will show as "Pending with SEBI"
- c. **Seek Clarification from Investor**: The entity will be able to seek clarification from investor. Whenever this decision is selected by the entity a notification on e-mail and mobile no. will be sent to the complainant. However, it will not result in any movement of the complaint or change in pendency in reports
- d. **Mark complaint to RTA**: This option should be present for complaints against listed companies. Listed company may mark the complaint to RTAs. This will result in complaint being forwarded to RTA. However, it will not result in any movement of the complaint or change in pendency in reports. The status at entity's end will show "Pending with RTA". When response is received from RTA the status shall change to "Reply received from RTA"
- e. **Provide response to Company**: This option should be present for RTA only. This will result in complaint being forwarded to Company. However, it will not result in any movement of the complaint from SEBI's perspective or change in pendency in reports. The status at entity's end will show "reply sent to Company".

1.3.1.6. Closed complaints

Input: Nil

Process: Nil

Output: List of complaints which were marked to entities and closed by SEBI will be displayed here. User can open a complaint by clicking on it and seeing all details pertaining to it including action history.

1.3.1.7. Search

Input: Entities can search and view complaints based on various parameters

- Complaint number
- Name of complainant
- PAN of complainant
- Address of complainant

Results should show all complaints which have been marked to the concerned entity. No result should be shown which has not been marked to them.

Process: Nil

Output: All complaints based on the search parameters should be displayed from the complaints that have been marked to the concerned entity.

1.3.1.8. Reports

Various reports will be available for user to check received, pending and closed complaints.

1.3.1.9. My Profile

The following options shall be provided to users under My Profile Section

1.3.1.9.1. Change details:

Input:

User can modify the following information entered at the time of registration

- Name of Official
- Designation of Official
- E-mail Address
- Mobile Number
- Phone number (optional)

Process:

The data will be updated at the back end.

Output:

The data has been updated on SCORES

Acceptance criteria:

- The fields should be pre-populated from the information submitted at the time of registration

- All the fields should be editable
- The changes should be updated in the account and back end
- The output message should be shown

1.3.1.9.2. **Change Password:**

User can change the password of their SCORES Account

Input:

- Old Password
- New Password
- Confirm New Password
- Password should be alphanumeric with at least one special character one character in CAPS and one numeric character.

Process:

Password should not be accepted if it doesn't conform to the rules.

Output:

Your Password has been changed.

Acceptance criteria:

- Password should not be accepted if it doesn't conform to the rules
- The output message should be shown
- User should be able to login with the new password

1.3.1.10. **Application for 1% NOC**

Merchant banker can apply for NOC for refund of 1% security deposit through this application.

The input process flow and output document as per [Appendix V](#).

1.4. **Inwards Module**

Inwards module is the interface for SEBI OIAE department to lodge SCORES complaints on behalf of investors who have sent their grievance via email or letters and forwarding complaints received from CPGRAMS to respective departments.

SCORES Inwards module will have following sections-

1.4.1. **Login page**

SEBI User can login by entering user id and password. After Successful login User will be taken to homepage.

1.4.2. *Home*

Homepage will show the below links –

1.4.2.1. **CPGRAMS**

List of all the complaints received from CPGRAMS will be displayed. The mechanism to download and populate complaints including reforwarded/reminder/clarification complaints from CPGRAMS API needs to be developed. User will select a complaint and complaint details will open with a section to take various decisions as described below-

Input:

Following fields pertaining to the complainant details to be editable.

- Address
- PAN
- Email
- Mobile Number

User can take one of the following decisions-

- i. **Transfer to division:** Once this option is selected SEBI DO can see the following Input Screen

Type of Reference: User can select between

- Complaint

When “Complaint” is selected, SEBI user should be able to mark the complaint to multiple categories.

- Category (drop down): All categories of complaints should be available.
- Mark copies to other categories (button): On clicking, it will open an extra dropdown to select category. A button will be available to add more category dropdowns. Maximum of 4 categories can be selected to send copies.
- Sub-category: Based on the category selected, all sub-categories under it should be populated. The subcategories should be a check box so that multiple sub-categories can be selected
- Text Box: a text box for typing comments of SEBI user has to be provided. Maximum of 2000 characters should be allowed

- Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.
- Market Intelligence
 - When “Market Intelligence” is selected, SEBI user should be able to mark the complaint to the appropriate category available under market intelligence
 - Category: All category of market intelligence should be available
 - Text Box: a text box for typing comments of SEBI user has to be provided. Maximum of 2000 characters should be allowed
 - Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.
- Suggestion
 - When “Suggestion” is selected, SEBI user should be able to mark the complaint to the categories under suggestion
 - Category: All categories under suggestion should be available
 - Text Box: a text box for typing comments of SEBI user has to be provided. Maximum of 2000 characters should be allowed
 - Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.

Process:

When a CPGRAMS complaint is marked as Complaint, it should be sent within SCORES to the concerned department handling that category based upon the routing rule.

For copies of the primary complaint a new SCORES reference number will be assigned to each category and assigned to respective department/division handling the said category. For new complaints if the Mobile number (and/or) email address is available then a notification should be sent to them. If both mobile number and email id are not present Inwards user to be prompted to send physical acknowledgment letter.

When a complaint is marked as market intelligence, it should auto close the reference and should send a standard response to the Ministry. If it is a ‘Taken Up’ case response should go as ‘Send ATR to ministry’ and if it is a ‘Transferred case’ it should go as ‘Case disposed off’. However, the complaint should land up in the inbox of the DC who is handling that category under market intelligence.

They should be able to take all actions as available under Market Intelligence

When a complaint is marked as suggestion, it should auto close the reference and should send a standard response to the Ministry. If it is a 'Taken Up' case response should go as 'Send ATR to ministry' and if it is a 'Transferred case' it should go as 'Case disposed off'. However, the complaint should land up in the inbox of the DC who is handling that category under suggestions. They should be able to take all actions as available under Suggestions.

Output:

A Message "Grievance has been updated successfully" will be shown.

ii. Not under SEBI's purview:

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment: Single document (pdf only) up to size of 2 MB.

Process:

When this decision is taken the reference should be returned back to CPGRAMS with our remarks. The complaint should be closed in SCORES

Output:

A Message "Grievance has been updated successfully" will be shown.

iii. Send ATR to Ministry (if Taken up complaint)

This option shall be given only when a Taken Up complaint is sent by Ministry.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment: Single document (pdf only) up to size of 2 MB.

Process:

When this decision is taken the reference should be returned back to CPGRAMS with our remarks. The complaint shall only be closed in SCORES when the closure report comes from CPGRAMS

Output:

A Message “Grievance has been updated successfully” will be shown.

iv. **Case dispose off (if transferred complaint)**

This option should always come for a Transferred complaint.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment: Single document (pdf only) up to size of 2 MB.

Process:

When this decision is taken the reference should be returned back to CPGRAMS with our remarks. The complaint shall be closed in both SCORES and CPGRAMS

Output:

A Message “Grievance has been updated successfully” will be shown.

1.4.2.2. Complaints received through email

System should be able to capture emails received on a specific email ID and enter the details into the system as new complaint. List of all the complaints received through Email will be displayed. The records will be assigned a temporary reference number and SCORES complaint number will be assigned after INWARD user takes ‘Transfer to division’ action. User will select a complaint and complaint details will open with a section to take various decisions as described below-

Input:

Following fields pertaining to the complainant details to be editable.

- Name
- Correspondence Address including Pin code and State/UT. Based on the Pin Code provided by the complainant, City and State should be auto selected
- E-mail Address to be verified with OTP
- PAN Number
- Mobile Number:
- Phone Number (Optional)
- Passport (In case of NRI)

User can take one of the following decisions-

- i. **Transfer to division**: Once this option is selected SEBI DO can see the following Input Screen

Type of Reference: User can select between

- Complaint

When “Complaint” is selected, SEBI user should be able to mark the complaint to multiple categories.

- Category (drop down): All categories of complaints should be available.
- Mark copies to other categories (button): On clicking, it will open an extra dropdown to select category. A button will be available to add more category dropdowns. Maximum of 4 categories can be selected to send copies.
- Sub-category: Based on the category selected, all sub-categories under it should be populated. The subcategories should be a check box so that multiple sub-categories can be selected
- Text Box: a text box for typing comments of SEBI user has to be provided. Maximum of 2000 characters should be allowed
- Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.

- Market Intelligence

- When “Market Intelligence” is selected, SEBI user should be able to mark the complaint to the appropriate category available under market intelligence
- Category: All category of market intelligence should be available
- Text Box: a text box for typing comments of SEBI user has to be provided. Maximum of 2000 characters should be allowed
- Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.

- Suggestion

- When “Suggestion” is selected, SEBI user should be able to mark the complaint to the categories under suggestion
- Category: All categories under suggestion should be available

- Text Box: a text box for typing comments of SEBI user has to be provided. Maximum of 2000 characters should be allowed
- Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.

Process:

When an EMAIL record is marked as Complaint, it should be sent within SCORES to the concerned department handling that category based upon the routing rule.

For copies of the primary complaint a new SCORES reference number will be assigned to each category and assigned to respective department/division handling the said category. For new complaints a notification should be sent to the email id.

When a complaint is marked as market intelligence, it should auto close the reference and should send a standard response through email. However, the complaint should land up in the inbox of the DC who is handling that category under market intelligence. They should be able to take all actions as available under Market Intelligence

When a complaint is marked as suggestion, it should auto close the reference and should send a standard response through email. However, the complaint should land up in the inbox of the DC who is handling that category under suggestions. They should be able to take all actions as available under Suggestions.

Output:

A Message “Grievance has been updated successfully” will be shown.

ii. Case dispose off**Input:**

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment: Multiple documents, but not more than 10 should be attachable with an overall size limit of 20MB.

Process:

When this decision is taken the reference shall be closed in SCORES and an email response should be sent to complainant.

Output:

A Message “Grievance has been updated successfully” will be shown

1.4.2.3. Lodge Complaint

SEBI can lodge a complaint on behalf of the complainant received via letter or email. User will enter the complainant details and enter the complaint details. Complaint details page will be similar to the [Investor module complaint registration page](#). None of the information here though will be mandatory.

Process:

When user clicks submit system will check if an account exists with entered PAN number.

- If an account is found the complaint will be lodged and linked with the user id.
- If account is not found a user account will be created with the given details and the lodged complaint will be linked with newly created user id.

Output:

A confirmation email and SMS will be sent to the entered email id and mobile number with complaint registration number and account details-

- i. In case of existing account - Login id of the account
- ii. In case of newly created account – Login id and password.

1.4.2.4. Letters

User will be able to generate below letters for the physical complaints lodged in SCORES.

- Acknowledgment Letter
- Clarification Letter
- Closure Letter

1.4.2.5. Search**Input:**

User can search and view complaints based on various parameters

- Complaint number
- Name of complainant
- PAN
- E-mail address
- Complaint against
- Mobile number

Process: Nil

Output:

Users should be able to access the complaint from the search result and see the complaint including attachment and the entire Action History of the complaint.

1.4.2.6. Appeals

List of all the appeals received from CPGRAMS will be displayed. The mechanism to download and populate appeals from CPGRAMS API needs to be developed. (Note – Currently API not available).

Input:

A field to fill the original CPGRAMS Complaint No. should be present. SEBI user should be able to fill the complaint no.

Process:

Appeals flow chart is given at [Appendix IV](#). Another way by which this could be done is sending the appeal directly to the inbox of the officer who had closed the CPGRAMS complaint. For this the API from CPGRAMS should include the original complaint no. on which the new appeal number is being generated.

Output:

User should be able to see the Appeal screen similar to CPGRAMS screen. On clicking the complaint, User should be able to see the complaint details along with attachments, if any.

The following decisions should be present for appeals-

Transfer to department

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the appeal should go to the dealing officer of the department who had handled the previous CPGRAMS complaint.

Output:

A Message “Appeal has been updated successfully” will be shown.

Send ATR to Ministry

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this decision is taken the appeal should be returned back to CPGRAMS with our remarks.

Output:

A Message “Appeal has been updated successfully” will be shown.

Mark to Reporting Officer**Input:**

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected the complaint may be marked to the CGM of OIAE

Output:

A Message “Appeal has been updated successfully” will be shown.

1.5. Admin Module

Admin module is the interface for SEBI OIAE department to perform admin activities. Admin module will have following sections-

1.5.1. Login page

User can login by entering user id and password. After Successful login User will be taken to homepage.

1.5.2. Home

Homepage will show the below links –

1.5.2.1. Add, view and edit Entities

Admin can add, view and edit the details of entities through this page. Renaming and deleting of entities can be done through this page.

On clicking the option, user will be asked to select from one of the options

- Add Entity

Entity type: A drop down containing three options shall be provided (Listed Company/ Registered Intermediary/ Recognized MIIs)

1. Listed Company

Input:

On selecting Listed Company, the following fields shall be shown

The screen will be similar to the Online Form-A for listed companies as per Annexure-VI

2. Registered Intermediary/ Recognized MIIs

Input:

On selecting Registered Intermediaries/MII, the following fields shall be shown

- i. Name of the Entity
- ii. Registration Number
- iii. PAN
- iv. Compliance Officer/Contact Person Name:
- v. E-mail
- vi. Mobile No.

Process:

The user should be able to fill the blank fields. Once the blank fields are filled and submitted the records should get updated

Output:

New record added

- Edit Entity

Entity type: A drop down containing three options shall be provided (Listed Company/ Registered Intermediary/ Recognized MIIs)

1. Listed Company

Input:

On selecting Listed Company, the following fields shall be shown

Name of the Entity: Upon typing the name of the entity the system should provide options from the database and should shortlist the options as more and more characters get typed.

Once the name of the entity is filled, the screen will be similar to the Online Form-A for listed companies as per Annexure-VI

2. Registered Intermediary/ Recognized MIIs

Input:

On selecting Registered Intermediaries, the following fields shall be shown: Upon typing the name of the entity the system should provide options from the database and should shortlist the options as more and more characters get typed. Once the name of the entity is filled, the screen will show the following fields

- i. Name of the Entity
- ii. Registration Number
- iii. PAN
- iv. Compliance Officer/Contact Person Name:
- v. E-mail
- vi. Mobile No.

Process flow:

These fields should be editable. Once edited the form should be saved.

Output:

Records are updated

○ Deactivate/Remove Entity

Entity type: A drop down containing three options shall be provided

1. Listed Company
2. Registered Intermediary
3. Recognized MIIs

On selecting any of the categories above, the following field will appear.

Input:

Name of the entity: Upon typing the name of the entity the system should provide options from the database and should shortlist the options as more and more characters get typed. Once the name of the entity is filled, the screen will show the following option should be shown-

- Deactivate
- Active

The above will be a radio button.

Process:

Upon selecting deactivate, the entity will no longer be able to login in their SCORES account. Further their information shall be removed from SCORES website. However, their information shall not be deleted from SCORES. The data shall also not be deleted/removed from SCORES and reports

Upon selecting Activate, the entity will be able to login in their SCORES account. Further their information shall be available on SCORES website.

Output:

Records are updated.

1.5.2.2. Block/Unblock SCORES users

Admin can block/unblock SCORES users (complainants) based on the PAN number/e-mail address. The list of blocked users can be fetched using a report. The blocking can be full or partial. In full block user will not be able to login to the SCORES website. In partial block user will be able to login to the SCORES but will be unable to lodge new complaints. There should be an option to select the time period for which the user can be blocked.

Input:

Please provide

- PAN:
- or
- E-mail:

Upon entering the PAN/E-mail the user information shall be shown. This will be fetched from the details as entered upon registration on SCORES

- Name of the user
- PAN
- Address
- E-mail Address
- Mobile Number

A radio button to select one of the two options below

- Partial Block
- Full Block
- Unblock

Time period: a time period for which this blocking shall be done. After the expiry of that time period, the blocking shall be removed.

Process: Nil

Output:

The user has been blocked/unblocked

1.5.2.3. **New entity registration approval**

The application for new entity registration, for both registered intermediaries and listed companies filed through organisation module will be shown in this screen for approval. Admin will be able to view the application and accept or reject. The completed applications will be available in a separate tab.

Input:

All details of [new entity registration](#).

- Accept
- Reject

Process:

Login credentials needs to be generated and shared with the applicant via Email and SMS.

Output:

Application accepted/rejected.

1.5.2.4. **Transfer of complaints**

In the scenario of transfer of SCORES portfolio/complaints from one staff to another staff, this function will be used.

Input:

Admin will open the page and enter the employee ID of staff. All the complaints in staff's worklist (pending and closed) will be displayed. Admin can filter the complaints based on category, complaint against, complainant name, status and received date. Admin will select the complaints to be transferred then enter the employee ID of staff to whom the complaints are to be transferred. Admin will click submit.

Process:

The selected complaints will be transferred. An entry in audit history of the complaint will be made "Complaint transferred from 'Officer1' to 'Officer2' by Admin".

Output:

Complaints successfully transferred.

1.5.2.5. Allocation of complaints alphabets

Admin will have the option to assign a particular category to one or multiple departments/divisions. The complaints will be divided based on the first letter of the name of entity against whom the complaint is lodged. In case of multiple departments/divisions the alphabets will be divided among the departments/divisions. If single department/division is selected all the alphabets and numbers (ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789) will be assigned to the department/division.

Admin can assign the allotted alphabets to the division chief and officers of the division. Whenever the alphabet allocations are revised, admin will have the option to reassign the existing complaints based on the new alphabet allocation or keep them with existing officers.

Input:

- Office
- Department
- Division
- Category
- List of Officers(Space for entering alphabets)
- Assign existing complaints(Checkbox)

Process:

Rules get updated based on the provided inputs.

Output:

Routing rules are assigned successfully and complaints have been transferred.

1.5.2.6. Set/Remove auto closure

Admin can select any category, sub category, status of company and set auto closure of the complaints received. Admin will have to enter the auto closure message to be displayed while closing of the complaint. The complaints received under the selected category, sub category and company status will auto close with the set message.

The list of active auto closure rules will be displayed here. Admin can select any rule and change the auto closure message or remove the rule. Review cannot be raised for complaints which are auto closed.

The function of creating new statuses for listed entities should also be provided to Admin.

1. Add auto closure**Input:**

- Category/Listed company(Radio button – select any one)

- If category selected
 - Category
 - Subcategory
- If Listed Company selected
 - Status
- Auto closure message

Process:

Rules get created based on the provided inputs.

Output:

Auto closure rule created.

2. Edit auto closure**Input (data pre filled):**

- Category/Listed company(Radio button – select any one)
- If category selected
 - Category
 - Subcategory
- If Listed Company selected
 - Status
- Auto closure message
- Update/ Remove

Process:

Rules get updated based on the provided inputs.

Output:

Auto closure rule updated/ removed.

1.5.2.7. Search

Admin can search and view complaints based on various parameters (Complaint number, Complainant name, e-mail of the complainant, entity against, PAN of the complainant, Mobile number of the complainant and SEBI inward number). All types of complaints including Review complaints, PG Portal Complaints etc. should be searchable from one function.

Input:

Search Following fields for complaints

- Registration number
- PAN
- Complaint Against
- Investor name
- SEBI inward no.
- E-mail address
- Mobile Numnber

The above should be checkboxes. When any field is selected an input field should open asking for that information.

Process: Nil

Output:

The concerned complaint should be provided based on the criteria provided. If no complaint is there then the system should say No complaint available.

1.5.3. Reports

Various reports will be available for admin to check received, pending and closed complaints. The existing input screen as available on SCORES should be provided for generating reports

- Total Complaint Report (category wise/region wise/division wise/Officer wise)
- MPR (category wise/region wise/ Officer wise)
- Entity Wise Report
- List of Company
- List of DC/DO
- List of Investor users
- MIS reports as shared
- Appeal Report
- Feedback Report (category wise/region wise/ Complaint wise/Question wise)

Total Complaints Report (detailed): The draft output of certain types of Total Complaint Report is provided at Annexure-VIII. The input fields will be similar to the input fields as provided in current SCORES. The total complaints report should generate complaints with status as Received, Pending, Pending Actionable, Resolved, Action by Stock Exchange, Regulatory action initiated and ATR to be processed.

The logic for the columns as provided in Annexure VIII is provided below. While certain columns will be taken as default in the report, option should be there to add more columns to the report. Also if any column needs to be removed from the default list then that option should also be provided.

SN	Column	Logic	Default
1.	Category	The category in which the complaint is lodged	Yes
2.	Registration no.	The registration o. of the complaint	Yes

3.	Complaint against	The entity against whom the complaint is lodged	Yes
4.	Received Date/Resolved Dated	The date on which the complaint is received or resolved	Yes
5.	Forwarded to sub-ordinate organization (days)	Days after which a new complaint was forwarded to the sub-ordinate organization for the first time. Till the time a new complaint is pending with DO, no figure should be shown in this column	No
6.	Name of complainant	Name of the complainant who has lodged the complaint	Yes
7.	Nature of complaint	The sub category of complaint as selected by complainant	No
8.	Pending Days	This column should show the total no. of days for which the complaint was/is pending	Yes
9.	Status	This column should show the pending status of the complaint as on the last date of the period for which the report is generated	Yes
10.	Status as on date	This column should show the pending status of the complaint on the date of generation of the report	No
11.	Pending with	The subordinate organization /dealing officer /Division Chief with whom the complaint is pending	Yes
12.	ATR yet to be processed (no. of days pending with officer)	This column should give the number of days the complaint remained/remains pending with the dealing officer after receiving ATR from the sub-ordinate organization	No
13.	Complaint yet to be assessed (no. of days pending with officer)	This column should give the number of days for which a new complaint was pending with officer. Once a complaint is forwarded then no number should show here	No
14.	Dealing Officer	Name of the dealing officer who is responsible to deal with the complaint	Yes
15.	Division Chief	The Division Chief to whom the Dealing Officer is reporting to	Yes
16.	Region	Regional office where the Dealing officer is located	No
17.	Complaint Details	The complaint details in the text box as submitted by the complainant should appear verbatim here.	No
18.	Closure Remarks	This column should provide the closure remarks with which the	No

		Dealing Officer disposes the complaint	
19.	Local Office	Local Office where the Dealing Officer is located	No

Total Complaints Report (Summary): The system will generate the type of report as selected i.e. category/region/division/dealing officer and provide the sum totals of each value under the type of report selected. For example, a category wise report should list all the categories and the total complaints received/resolved/pending for the time period under each of the categories.

MPR Report: No change in logic of this report. The only change will be in the format of MPR Report (Region Wise Report) as provided in Annexure VIII.

Entity Wise Report: The entity wise reports should provide a count of complaint for each entity selected under the various heads as available in the current report and provided in the Annexure. The screen for selecting entities should be simplified.

A dashboard on complaints data should be available for all users including Admin. This dashboard should show various stats and figures for complaints including live counts of complaints and ATR pending with officers.

1.6. Staff Module

Staff module is interface for SEBI staff to interact with the complaints lodged by investors. Staff can access the interface by logging into SHARE portal (It is a portal used by SEBI employees to access all the applications available in SEBI).

Staff module will have following sections-

1.6.1. Home/Dashboard

It will contain all the links to below sections and dashboard view to show the counts of pending applications in –

1. Complaints
2. Suggestions
3. Market Intelligence
4. PG Portal Appeal
5. 1% NOC

1.6.1.1. Complaints

The home screen of the complaints page will show the following information

Registration No.	Name of the complainant	Complaint against	Date of complaint	Days pending	Status

An option to filter and sort complaints on “Status”, “Days Pending” and “Complaint against” should be provided. Check boxes should be provided against each complaint so that they can be bulk selected and moved to other tabs or action can be taken on them. There will be 4 sections inside this page.

1.6.1.1.1. Pending Actionable

The list of all complaints which are open and not under Regulatory Action/Non Actionable/Action by SE will show here.

Staff can click on any complaint and it will open the full details along with actions window. The Action history of the complaint will also be available but in a different tab. Upon clicking on a complaint the system should also show the previous complaints by the same complainant (based on PAN) against the same entity. Staff can take below actions within the complaint-

1. Seek clarification from organization – This option will send the complaint to the entity against whom the complaint has been made.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to the organization against whom complaint has been lodged. A notification email and SMS should be sent to compliance officer of organization. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to the complainant. A notification email and SMS should be sent to complainant. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

3. Transfer to different category- This will transfer the complaint to any other category in SCORES

Input:

- Category
- Sub category
- Complaint against Organization
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to the division chief/officer based on the routing rule of the new category. A notification email and SMS should be sent to new division chief/officer. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

4. Transfer to other officer(Role wise from officer to officer and Division chief to division chief within same department)- If the complaint is to be handled by a different officer within the division or a different Division chief within the department

Input:

- List of division chief/officer.
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to the selected division chief/officer. A notification email and SMS should be sent to new division chief/officer. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

5. Assign to officer (available for division chief only): This option will be available to Division Chief to mark a complaint to any officer reporting to them.

Input:

- List of officers.
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to the selected officer. A notification email and SMS should be sent to officer. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

6. Not under SEBI purview (CPGRAMS cases): To send back the complaint to PG Portal

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to CPGRAMS. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

7. Send ATR to ministry(CPGRAMS-Taken Up Cases only): To send our comments to CPGRAMS

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to CPGRAMS. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

8. Interim Remarks: To note any interim remarks with respect to the complaint

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

9. Case dispose Off: To close the complaint

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should be closed. A notification email and SMS should be sent to complainant. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

10. Send email: To send the complaint details via email.

Input:

- Email Id(Multiple Ids allowed)
- CC (Multiple Ids allowed)

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint details along with all the attachments should be sent to given Email ID(s). Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

11. Send to Stock Exchanges & Depositories: This option will send the complaint to the selected Stock Exchange(s) & Depositories.

Input:

- List of Stock Exchanges & Depositories (checkbox)
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should go to the selected stock exchange & depository. A notification email and SMS should be sent to compliance officer of organization. Action history will be maintained separately for each stock exchange & depository selected. Action histories will be displayed tab wise separately.

Output:

A Message “Complaint updated successfully” will be shown.

12. Create a duplicate complaint- This will create a duplicate complaint and assign to different category in SCORES

Input:

- Category
- Sub category
- Complaint against Organization
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the new complaint should go to the division chief/officer based on the routing rule of the new category. A notification email and SMS should be sent to new division chief/officer. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

13. Move to Regulatory Action/ Non Actionable/ Action by SE: This option will move the complaint to Regulatory Action/ Non Actionable/ Action by SE.

Input:

- Regulatory Action/ Non Actionable/ Action by SE(Radio button- only one can be selected)
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should move to Regulatory Action/ Non Actionable/ Action by SE. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

14. Change of nature: This will move the complaint from complaint to suggestion/market intelligence.

Input:

- Market Intelligence/ Suggestion (Radio button- only one can be selected)
- Category
- Sub category
- Complaint against Organization
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaint should move to Market Intelligence/ Suggestion. Action history will be updated.

Output:

A Message “Complaint updated successfully” will be shown.

1.6.1.1.2. Regulatory Action

The list of all complaints which are open and under Regulatory Action status will show here.

Staff can click on any complaint and it will open the full details along with audit history and actions window. All the actions available in pending actionable section except ‘Move to Regulatory Action/ Non Actionable/ Action by SE’ will be available here. Additionally one extra action will be available-

Output:

A Message “Appeal updated successfully” will be shown.

3. Transfer to other officer(Role wise from officer to officer and Division chief to division chief within same department)- If the Appeal is to be handled by a different officer within the division or a different Division chief within the department

Input:

- List of division chief/officer.
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the Appeal should go to the selected division chief/officer. A notification email and SMS should be sent to new division chief/officer. Action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

4. Assign to officer (available for division chief only): This option will be available to Division Chief to mark an Appeal to any officer reporting to them.

Input:

- List of officers.
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the Appeal should go to the selected officer. A notification email and SMS should be sent to officer. Action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

5. Interim Remarks: To note any interim remarks with respect to the Appeal.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

6. Send report to DC(available for officer): To send report about the Appeal

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the report should be sent to DC. Action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

7. Send for approval: To close the Appeal

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the Appeal should be sent to HOD for closure. Action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

8. Approved(available for HOD): To close the Appeal

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the Appeal should be closed. Action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

11. Create a duplicate Appeal - This will create a duplicate Appeal and assign to different category in SCORES

Input:

- Category
- Sub category
- Complaint against Organization
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the new Appeal should go to the division chief/officer based on the routing rule of the new category. A notification email and SMS should be sent to new division chief/officer. Action history will be updated.

Output:

A Message “Appeal updated successfully” will be shown.

1.6.1.5. 1% NOC (Available for OIAE & CFD only)

The list of all 1% NOC applications which are open will show here.

Staff can click on any application and it will open the full details along with audit history and actions window. Staff can take below actions within the application -

1. Forward to CFD(available to OIAE)

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters

- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, a copy of Application should be sent to CFD. Action history will be updated.

Output:

A Message “Application updated successfully” will be shown.

2. Seek clarification from organization – This option will send the Application to the organization for clarification.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the Application should go to the organization for clarification. A notification email and SMS should be sent to compliance officer of organization. Action history will be updated.

Output:

A Message “Application updated successfully” will be shown.

Staff can select multiple complaints and send to one of the three categories (Regulatory Action/Non Actionable/Action by SE). Staff will have the option to filter the complaints based on the complaint against entity name. After the action complaints will be transferred to respective Regulatory Action/Non Actionable/Action by SE section.

Input:

- Regulatory Action/ Non Actionable/ Action by SE(Radio button- only one can be selected)
- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaints should move to Regulatory Action/ Non Actionable/ Action by SE. Action history will be updated.

Output:

A Message "Complaints updated successfully" will be shown.

1.6.1.9.2. Move to Pending Actionable

In this section all the complaints with Non Actionable status in staff's worklist will be displayed. Staff can select multiple complaints and send to Pending Actionable. Staff will have the option to filter the complaints based on the complaint against entity name. After the action complaints will be transferred to Pending Actionable section.

Input:

- Text Box: A text box will be provided where user can type up to 2000 characters
- Attachment (Optional): Single document (pdf only) up to size of 2 MB.

Process:

When this option is selected and submitted, the complaints should move to pending actionable Action history will be updated.

Output:

A Message “Complaints updated successfully” will be shown.

1.6.1.9.3. Transfer of complaints

In the scenario of transfer of SCORES portfolio from one staff to another staff this application will be used. Staff will open the page and all the categories currently handled by the staff will be displayed. Staff can select all or selective categories then select the officer to whom the complaints need to be transferred and click submit.

Input:

- List of Categories(checkbox)
- List of Officers(All officers of same division)

Process:

When this option is selected and submitted, the application will go to reporting manager for approval. After reporting manager approves the routing rule of categories along with complaints will be transferred to new officer.

Output:

A Message “Transfer request submitted successfully” will be shown.

1.6.1.9.4. Approval of Transfer (Available for Division Chief)

Input:

- Approve (Button)
- Reject (Button)

Process:

If reporting manager approves the routing rule of categories along with complaints will be transferred to new officer.

Output:

A Message “Transfer request submitted successfully” will be shown.

1.6.1.9.5. Allocation of complaints alphabets (Available for HOD & Division chief)

HOD will have the option to assign a particular category to one or multiple divisions. The complaints will be divided based on the first letter of the name of entity against whom the complaint is lodged. In case of multiple divisions the alphabets will be divided among the divisions. If single division is selected all the alphabets and numbers (ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789) will be assigned to the division.

Division chief can further assign the allotted alphabets to the officers of the divisions. Whenever the alphabet allocations are revised by HOD or DC, they will have the option to reassign the existing complaints based on the new alphabet allocation or keep them with existing officers.

Input:

- Office(prefilled based on details of user and non-editable)
- Department(prefilled based on details of user and non-editable)
- Division
- Category
- List of Officers(Space for entering alphabets)
- Assign existing complaints(Checkbox)

Process:

Rules get updated based on the provided inputs.

Output:

Routing rules are assigned successfully and complaints have been transferred.

1.6.1.9.6. Letters

User will be able to generate below letters for the physical complaints lodged in SCORES.

- i. Clarification Letter
- ii. Closure Letter

1.6.1.9.7. Manuals

Manual on how to process the complaints will be available here. Admin will have an option to update this document through admin module.

1.7. Other things required

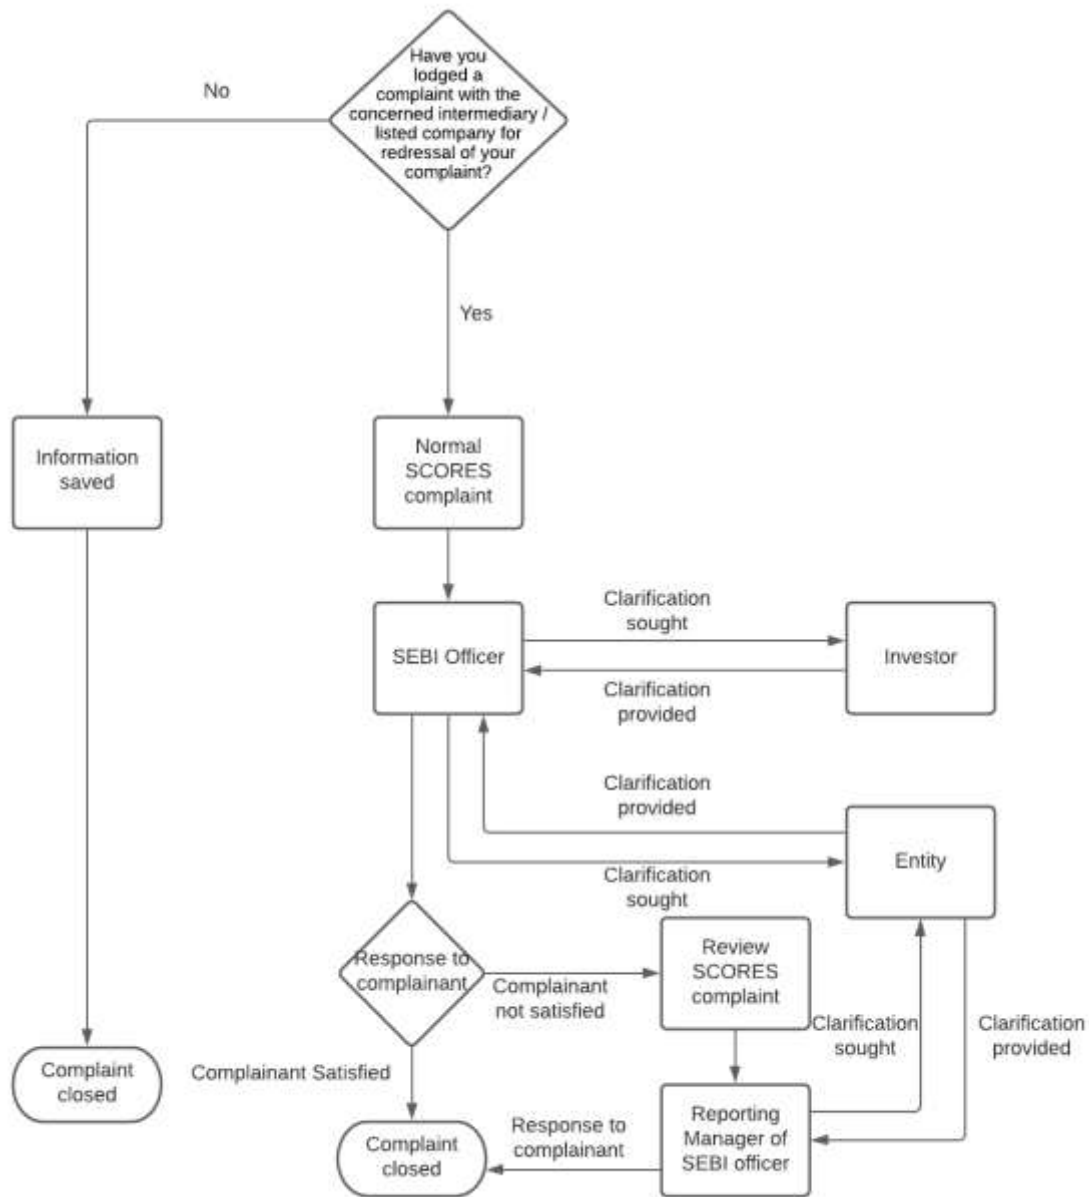

1.7.1. Updating SCORES database

- The list of listed companies should be similar to the list as available with the stock exchanges. The SCORES database should be updated automatically with the data from stock exchanges for listed companies.
- The list of registered intermediaries should be similar to the list as available on SEBI website. The SCORES database should be updated automatically with the data from SEBI website for any change in details of intermediaries.
- Apart from the existing categories new categories and sub categories of complaints will be required to be added.

1.7.2. Other requirements

- The new SCORES system (Web & Mobile Platforms) to be developed in bilingual format (English & Hindi). Provision to submit inputs in bilingual format should be supported. Option to add support for new languages in future should be kept.
- System should be able to capture emails received on a specific email ID and enter the details into the system as new complaint. These new records will be displayed in the Inwards module, where inward user will check and assign the complaint to appropriate category.
- Develop APIs for MIIs (Stock Exchanges, Depositories etc.) to access various features of SCORES.
- The website and APIs should be developed in accordance with the W3C standards.
- The website and Mobile application should be accessible to people with visual impairment.
- Integration with SEBI HRMS system for getting information details regarding SEBI officials.
- Staff module of new system should be integrated with SEBI SHARE portal and SEBI officials should be able to access the module by logging into the SHARE portal.
- Migration of the old data from existing SCORES to the new SCORES system.
- Search engine optimization.
